2016 Annual Meeting
<http://2016.tua.org.tw>

*New Thoughts,
New Perspectives*

2016

The 38th Taiwan
Urological Association
Annual Meeting

Veteran General Hospital,

Taipei, Taiwan

August 20 to 21

INVITATION TO JOIN THE 2016 ANNUAL MEETING OF THE TAIWAN UROLOGICAL ASSOCIATION

The 2016 annual meeting of the Taiwan Urological Association (TUA) will be held at Veterans General Hospital, Taipei, Taiwan on August 20 and 21. The organizing committee sincerely welcomes you to this educational and scientific meeting.

The 2015 annual meeting included a series of stimulating educational programs and more than 200 abstracts. TUA members indicated that these well-organized educational programs enabled them to learn about many aspects of medical progress in urology. The 2016 meeting will include State-of-the-Art lectures in the plenary session, opportunities to meet the experts, structured workshops, educational courses, and TUA symposia. There will also be a Pan-Pacific Continence Society/ TUA joint symposium, Asian Urology Forum, a TUA forum on Botox treatment of lower urinary tract dysfunction, a TUA forum on prostate cancer, and chief resident debates.

Many well-known experts from the USA, Europe, Japan, Korea, China, and ASEAN will attend and present at this meeting. Young urologists will have a chance to acquire updated information through interaction with these experts. In addition, young urologists will be able to attend a pre-congress simulation surgery course on pelvic floor dissection and surgeries for stress urinary incontinence and pelvic floor prolapse. This course will be held at Buddhist Tzu Chi University, Hualien, Taiwan. Foreign attendees are also welcome to participate.

On behalf of the TUA, I would like to invite you to submit open papers and posters as part of the scientific program. Your contribution will increase the scientific level of this annual meeting.

Please reserve the date on your calendar. We look forward to seeing you.

Hann-Chorng Kuo, M.D.
President,
Taiwan Urological Association

Simulative Surgery

Pelvic floor dissection and SUI/POP surgeries

8 rapid frozen soft silent mentors (whole body cadaver, all female). Only 3 attendants are allowed for a silent mentor in a whole day course. The attendants must also attend the funeral ceremony in the next morning to worship the silent mentors.
